How AI is changing the way we work, teach and learn

September 11-13 (13:30-14:30 CET Mon-Wed)

bit.ly/citylabs-ai

This CityLabs Lightning Bites series considers diverse perspectives on and cross-cutting implications of AI for learning - from literacy to ethics, from course design to skills development, from the future of work to the student experience today, from learning environments on campus to learning cities.

Join us for a week of bite-size talks where we explore the challenges and opportunities ahead with AI, and ask what we can do now to help us navigate these transitions?

	13:30 - 14:00 CET	14:00 - 14:30 CET
Mon September 11	**Prof. Gilles Louppe** *University of Liège* "AI Basics"	**Michele Murgia** Erasmus University Rotterdam "Better AI for Academia"
